Sheriff's Sale.

PENOBSCOT ss., August 25, 1858. Taken on execution, and will be sold at public Auction, at my office in Bangor, in said County, on SATURDAY, the eleventh day of September next, at ten o'clock in the forenoon, all the right which Edward Mansfield has or had on the third day of October, A. D. 1857, the date of the attachment on the original writ, of redeeming the following described parcel of mortgaged real estate, situate in Orono, in said County, bounded as follows viz: Beginning at a hub marked and standing on the westerly line of Maggie street, and on the original lot line about twenty two rods northerly of the northerly line of the stone abutments above the Basin Mills, so called, thence South, 83 deg. 15 min., West, ten rods to a hub marked; thence North, 60 deg. 60 min. West, twelve rods to a hub marked, thence North, 35 deg. 15 min. East, ten rods to a hub marked and standing on the origin. line aforesaid; thence South, 83 deg. 30 min. East, on said line, twelve rods to the bounds began at—containing one hundred and twenty square rods, with the buildings thereon, being the same premises conveyed to said Mansfield by —— May. Dec. 5, 1856, by deed recorded in vol. 237, page 152 of Penobscot Registry, and the same conveyed in mortgage by said Mansfield to C. O. Bliss, Lewis Hidden and Charles Bean, June 17, 1856 by deed recorded in vol 255, page 294 of said Registry.
jy12 d3w C. T. GILMORE, Sheriff.

Notice of Foreclosure.

I, THE UNDERSIGNED, of Hampden, in the County of Penobscot, hereby give notice that *Joan Woodcock*, of the City of Bangor in said County, by his deed dated Dec. 30th, 1851 duly acknowledged and recorded in vol. 220, page 267 of Penobscot Registry, conveyed to one Charles Sawtelle his deed of mortgage of the following described premises, situate in Bangor aforesaid, viz:
Beginning at the dividing line between the Gilman lot and the Bankhead lot, so called, on the Northerly side of State street, one hundred and ninety four feet from a point on said State street made by the Southeasterly corner of said Bankhead lot and South-westerly corner of said Gilman lot, and measuring on said dividing line; thence, Northerly an said dividing line, fifty five feet, thence Westerly, one hundred and thirty feet, to Grove street, thence Southerly, on said Grove street, fifty-five feet thence, at right angles with said dividing line, to the place of beginning, being the same premises on which said Woodcock now lives, which said premises and mortgage were duly assigned to the undersigned by said Sawtelle, and on record vol. 286, page 296—to both of which deeds reference may be made.
The undersigned also hereby gives notice of his foreclosure of same premises, mortgaged by said Woodcock to him, Nov 30, 1852 and on record in vol 228, page 315 of Penobscot Registry, to which deed reference must be made.
The condition of both of said mortgages having been broken, I claim to foreclose, and do hereby foreclose the same, according to the statute.
August 9, 1858 1w* JOSHUA LANE.

Scientific American.

PROSPECTUS.

Volume Fourteen.

BEGINS SEPTEMBER 11, 1858.

MECHANICS, INVENTORS, MANUFACTURERS AND FARMERS.

THE Scientific American has now reached its Fourteenth Year, and will enter upon a New Volume on the 11th of September. It is the only weekly publication of the kind now issued in this country, and it has a very extensive circulation in all the States of the Union. It is not, as some may suppose from its title, a dry, abstruse work on Mechanics, on the contrary, it so deals with the great events going on in the scientific, mechanical and industrial worlds, as to please and instruct every one. If the Mechanic or Artisan wishes to know the best machine in use, or how to make any substance employed in his business, or the Housewife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on in the way of improvements—if the Manufacturer wishes to keep posted with the times, and to employ the best facilities in his business—if the Man of Leisure and Study wishes to keep himself familiar with the progress made in the chemical laboratory, or in the construction of telegraphs, steamships, railroads, engines, mowers and a thousand other appliances, both of peace and war—all these *desiderata* can be found in the SCIENTIFIC AMERICAN, and *not elsewhere*. They are here presented in a reliable and interesting form, adapted to the comprehension of minds unlearned in the higher branches of science and art.
TERMS.—One Copy, One year $2,00. One Copy, Six Months, $1. Five Copies, Six Months, $3. Ten Copies, Twelve months, $15. Fifteen Copies, 12 Months $22. Twenty Copies Twelve Months, $28, in advance.
Specimen copies sent gratuitously for inspection. Bon hest and Western money, or Postage Stamps, taken for subscription. Letters should be directed to MUNN & CO.,
128 Fulton street, New York.
☞ Messrs. MUNN & Co. are extensively engaged in procuring patents for new inventions, and will advise inventors without charge, in regard to the novelty of their improvements. aug21

LINCOLN'S WATER PROOF BLACKING, AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

IS it not a truth that what the feet are often wet, is one of the greatest causes of colds and consumption? Is it a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks, but when it is water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.
After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to render it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make it shed water-proof, but it also softens the leather, and it will
Positively wear twice as long.
I have now used it for three years and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence recommend it to the public as the best article in the market.

FRUIT JARS.—The best and cheapest in the market, for sale by
aug18 B. F. BRADBURY & CO.

HIGHLY IMPORTANT DISCOVERY.

Fousel's Pabulum Vitæ

Has now gained its position before the public as
THE ONLY REMEDY
yet discovered for the speedy relief and permanent cure of
CONSUMPTION,
Coughs, Colds, Hoarseness, Bronchitis, and all other Pulmonary Complaints
The discovery of an eminent French Physician after many years of study and observation, it continually meets with the most
ASTONISHING SUCCESS
in the treatment of the above complaints.
Its unabated popularity, numerous certificates of remarkable cures, the recommendation of some of our most eminent physicians, and the analysis of Dr A. A. Hayes, the State Assayer, all give convincing proofs of
THE UNRIVALLED VIRTUES
And Unquestioned Superiority
of this preparation to any other remedy now extant, and are constantly contributing to give it a wider and more enviable reputation. From its volatile nature, it affords vapors freely, and consequently is DIRECT IN ITS ACTION UPON THE LUNGS AND AIR PASSAGES.
The discredit which has been thrown upon all preparations not prescribed by regular physicians, by reason of the recklessness with which worthless and injurious compounds have been imposed upon the public, will tend to deter many from availing themselves of the benefits of this preparation, the agent, however, assures the public in all sincerity, that this medicine is not only *perfectly safe, and free from all other deleterious ingredients*, but guarantees that it will effect all that he represents, not having heard of a single case where it has failed to give satisfaction.
It is warranted to cure
Consumption by using One to Six Bottles;
Bronchitis by using One to Three Bottles;
Coughs by using less than One Bottle;
Colds by using it Two to Six Days;
Bleeding of the Lungs by using less than One Bottle;
Hoarseness by using less than One Bottle;
Soreness of the Chest by using less than One Bottle;
Price $3 per bottle, accompanied by a Treatise.
For sale by
F. J. LAFORME, Sole Agent,
No 6 Milk Street,
Boston, Mass.
And by all respectable Druggists and Apothecaries in the United States and British Provinces. nov25 67 dly1y

THE HATCH HOUSE,
Main Street, Bangor, Maine.

This House has been thoroughly repaired, refitted, and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber.
It is a large, commodious, and well furnished House, situated on Main Street, near the centre of the city, and within a short distance of the Steamboat Wharves and the Depot of the P. & K. Railroad, to and from which Coaches are always in readiness to convey passengers.
Its numerous advantages for trade, and particularly to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city.
Connected with the House is a large and commodious Stable, in charge of competent and faithful hostlers.
By strict personal attention to the comfort of his guests, the proprietor hopes to receive a liberal share of patronage.
NATHAN PERRY, Jr.
Bangor, Feb 26, 1856

N B Mr. C also offers his services to selecting Pianos, Melodeons, &c., to persons about buying. jy6tf

☞ REMOVAL.

United States and Foreign
PATENT AGENCY.

SAMUEL COOPER,
Late Principal Examiner of Patents in the United States Patent Office, at Washington,
HAS REMOVED HIS OFFICE TO
WEBSTER BANK BUILDING,
13 Exchange Street, Boston.

PATENTS secured in the United States, and in all other patent granting countries. Specifications and drawings prepared. Caveats filed. Reconsiderations prosecuted, of applications that have been rejected upon imperfectly prepared papers. Interferences prosecuted. Re issues and extensions procured and in general, all business connected with the Patent Office transacted with care and promptness.
British and other foreign patents procured through prompt and confidential agents in London and Paris.
Persons residing at a distance may obtain all necessary information, and have their business transacted, by writing to the subscriber, without the trouble and expense of a visit to Washington.
He begs leave to refer those unacquainted with him to the following testimonials.—
From the Hon. Charles Mason, Commissioner of Patents
U. S. PATENT OFFICE, Feb 23 1855
I take great pleasure in stating that during the time I have been acting as Commissioner of Patents, Samuel Cooper, Esq., of Boston, has been engaged as Solicitor, and has been in that capacity in constant correspondence and intercourse with the Office, he has evinced a thorough acquaintance with the Patent Laws, and with the rules and practice of the office, a close attention to the interests of his clients, and a marked candor and courtesy that has rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with this office with whom I am acquainted.
CHARLES MASON, *Commissioner.*
From the Examiners of the Patent Office
The undersigned, Principal and Assistant Examiners in the United States Patent Office, have had several years been well acquainted with Mr. Samuel Cooper, late a principal Examiner in this office, and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the office, and that his recent admission to the bar renders it eminently fit for the business in which he is about to engage.

HENRY H. BENWICK, } Principal Examiners.
L. D. GALE, }
S. H. LANE, }
F. SOUTHGATE SMITH, }
T. R. PEALE, } Assistant Examiners.
THOS. T. EVERETT, }
WM. C. LANGDON, }

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.
WM. P. N. FITZGERALD,
Late Principal Examiner of Patents.

Among the Engravings are
The Signing of the Death Warrant of Lady Jane Grey, from the celebrated painting by Daniel Huntington. 22 inches long by 17 inches wide, $1 00 12c
The Trapper's Last Shot, from the great painting by W. Rangey, 18x24, 1 00 12c
The Angler's Daughter, from the great painting by Landseer, 50 9c
Sparking, from the painting by F. W. Edwards, 50 9c
(For full schedule see our Catalogues.)
The United States Journal contains sixteen large folio pages, ably edited and profusely illustrated. Price only 50 cents a year.
Our Catalogue contains over 1,000 of the most useful, entertaining, and popular works of the day.
Any person sending us 50 cents or more, either for the Journal or for *Books* at the lowest prices, is entitled to the same amount in any of the premiums of his own selection from the schedule.—He is also entitled to extra premiums amounting to $1, and extra Books or Journals amounting to $1 for every club of $10, thus receiving for $10 Books or Journals amounting to $11, and Premiums amounting to $11. The amount to prepay postage on the Premiums should accompany each order.
Every reader is invited to form a club and wish to arrange with some person at every Post Office to act as local agent and correspondent, who will be richly paid therefor.
Specimens and Catalogues sent free on application. Send on a few subscriptions at once, and select your premiums from the above, or when you receive the Catalogue.

aug9

Whig and Courier.

COLLISIONS AT SEA.—The excuse offered for the recent collision between the steamers Europa and Arabia, that the latter mistook the light of the former for the Cape Race light, has been considerably criticised and the question asked, Did the Arabia expect to run over Cape race? Whether due vigilence was or was not exercised on that occasion, is a matter of investigation, but the reason assigned for the accident is not an improbable one, and has been offered before. A writer on "Ship wrecks" in a late number of the London Quarterly review in speaking of the inferior power of the burners in the English light houses, remarks

"Another great and at present pressing evil arising from the limited range of the present burners is the fact that steamers are beginning to run at such a speed as to be estimated at eight hours from shore to shore, and in the English channel and the Irish sea the growing practice of running in the direct track by night which it renders to prevent most disastrous consequences. As recently as February last the Leander at Liverpool, proceeding down the George's Channel, saw a light which she mistook for that on Tuskar rock, and, when too late, discovered that it belonged to the screw steamer North America, which was coming right ahead. Charity forbids that we should suppose that the master of the Leander was not sober, and the collision was the more unaccountable as the night was clear and the sea smooth. The Leander struck the North America on the starboard bow, cutting her down to the water's edge, and causing the loss of many lives, which it is believed might have been prevented by the use of a more powerful light than that carried by steam vessels. Other vessels passing along the Channel"

AN INTERESTING DISCOVERY.—We are assured upon what may be considered reliable authority, that it has been ascertained that recently there has been found in the city of Toledo, Ohio, a copy of the Bible, which is said to be the first book ever printed with movable types. It has been known for some time past that there was there a Christian people, long lost and forsaken by the world, but it was not known that they were in possession of the Bible, and they met with a hearty welcome from the discoverers. Bibles and Testaments were distributed among the people, who expressed their thankfulness in the Italian tongue. As the base pagan rites and ceremonies of Rome, so particularly those of the Virgin Mary, were found to be unknown to them, the Bible was found to contain the very principles of the Reformation, which had been treated and cherished by Protestants, were sent out and their thousands persons baptized.
The circumstances connected with this discovery are these: Charles V. ordered the Bible to be burned in all the countries of his dominions. The manner in which these Christians were found was as follows: A few years ago a Protestant missionary was sent to the East Indies. While engaged in his labors there he found a people who had been treated as the Waldenses, Bohemians, and Albigenses were treated, and who had been created by the same persecuting power. Another great and at present pressing evil arising from the limited range of the present burners is the fact that steamers are beginning to run at such a speed as to be estimated at eight hours from shore to shore, and in the English channel and the Irish sea the growing practice of running in the direct track by night which it renders to prevent most disastrous consequences. As recently as February last the Leander at Liverpool, proceeding down the George's Channel, saw a light which she mistook for that on Tuskar rock, and, when too late, discovered that it belonged to the screw steamer North America, which was coming right ahead. Charity forbids that we should suppose that the master of the Leander was not sober, and the collision was the more unaccountable as the night was clear and the sea smooth. The Leander struck the North America on the starboard bow, cutting her down to the water's edge, and causing the loss of many lives, which it is believed might have been prevented by the use of a more powerful light than that carried by steam vessels. Other vessels passing along the Channel" says:

"He *left* a very abandoned character."
"Oh yes, replied Smiley, that's why he's sent out of his life has been base."

The powder used in firing a salute at Sandwich, Mass., to celebrate the success of the Atlantic Telegraph, after it was put together in 1858, to explode with

At Hampton Court one of the Black Hamburg grape vines is nearly two feet long and has been used for over ninety years old, and at one time was for over fourteen hundred pounds of fruit. It now bears about 1,000 bunches at the present time.

A susceptible young lady in Boston declares that a pretty woman is like a first class hotel—a great help mate, and has a number of rooms to let under different names. Some are for transient occupation, others for permanent boarders.

THE EFFECT OF THE TELEGRAPH.—The London Times, speaking of the Atlantic Telegraph says:

Since the discovery of Columbus nothing has been done in any degree approaching to the vast enlargement of the sphere of human action which will be effected by the Atlantic Telegraph. We know that this discovery will ultimately be resolved, before finding a hope that all the nations of the earth may not be placed in immediate contact with us. We know that we have only to double the means of practical intercourse, as a matter of certainty, to double the amount of the business and the wealth of the merchant. It is not too much to suppose that within a very short period we shall be able to present to our readers every morning intelligence of what happened the day before in every quarter of the globe. The Admiralty will know to within a few miles the position of every ship in her Majesty's service. The intelligence of a Caffre war, or an Indian mutiny will reach us before the first blood that has been shed is cold, and we shall be able to reconsider the whole time consumed by the ordinary vehicles of intelligence."

Negro Sunday School Parade.—Richmond. A band of Negroes, numbering of colored people except the public worships, and under the patronage of the Mayor of Richmond last Sunday, attended the attendants at a colored Sunday school, 900 in number, 46 of whom were slaves—provided by masters, and then discharged from the church, who acted as their instructor, was however, held to know no cause why he should not be dealt with according to law.

To DESTROY THE WHITE DAISY.—I have read the enquiries of your correspondent as to the best mode of subduing the white daisy, in answer to which I will say that I have found pastoring with sheep effectual; they will devour the blossoms, which, in a few years, will

NEWSPAPERARCHIVE®
NEWSPAPERARCHIVE®

put an end to the weed. By the way, it is an economical way of pasturing sheep, by inclosing with them that weed (ragweed) one week 6 cows, horses, young cattle, &c., the next week the same lot to sheep, and the third week the lot to be weeded to restock; so that by the use of three lots a mere can be pastured three weeks continued in the same lot, and be cows, &c., be on the fresh feed all the time.—*Country Gentleman.*

THE OLDEST POSTMASTER.—A writer in the *National Intelligencer* says that in 1806 Col. John Billings received his commission as Postmaster of the village of Onondaga-ravern, now Trenton, in the County of Oneida, in the State of New York. The record of his commission was destroyed at the burning of the Post Office Department at Washington, but his official bond is still in existence. For a period of fifty-three years he has to filled the duties of his office with the most scrupulous fidelity and the most unceasing fidelity, to its interests; thus showing himself an honor to the town that still bears its "Vanderkemp" and its Troppers of Revolutionary memory."

There are forty-six pers as in England who have incomes of £450,000 a year, equal to two millions and a quarter dollars, while four hundred and forty-four persons have incomes ranging from fifty to two hundred and fifty thousand dollars a year, and eight hundred and eleven from twenty-five to fifty thousand.

CLASS CONVENTION.

The Republicans of Eddington, Bri ford, Reading, Holden and Clifton, are requested to meet, by their delegates at the Universalist meeting house, at Eddington Bend, on Saturday, the tenth day of September next, at two o'clock P. M., to nominate a candidate for Representative to the Legislature from the said Republicans. The Republicans of Dixmont are requested to be in their places at the hour fix d aforesaid, and Dixmont Corner.

A. M. WARD, of Eddington,
D. Brown, John Welch, T. J. Hutchins, etc., Larry Penney, Class Committee
August 16, 1858

The Sixth District.

Blood, single handed and alone, and nothing but a red herring in his pocket for currency, is good for the whole tribe of hirelings from abroad, who are infesting his District.—*Union.*

Does the Union refer to the Custom House officers and Post Office clerks who have recently gone into the Sixth District, from the city "on business"—or to our new Fishery Commissioner and divers Straight Wing Democrats, who have lately been on an eastern tour?

New Duties of a Washington Clerkship.

Is it true that the Bangor Union is now partly under the editorial management of Dr. JORDAN, a clerk in one of the Departments at Washington? Such is the allegation—and there is internal evidence of the fact, in the sudden and singular sputtering which has arisen in that quarter. "Faust" is earning his salary. Let him sputter. But what do the people think about paying a public officer for such service?

The Whig thinks there is an enormous *great cat* with extremely long and sharp claws, hidden under that *very small* patch of hair.—*Union.*

Oh no, we don't consider the new "cat" in the Union to be anything very *great*—although we agree that the critter hides under a very small patch of hair." It is a long legged animal from Washington, and of the "specious" species of wild cat, we'll allow

Free Kansas to be Secured.

The Portland Argus says:

The blacks are very indignant at the Democrats should claim the vote of Kansas in favor of sustaining a Territory, as a Democratic victory, which it is.

"The vote on Kansas in favor of remaining a Territory!" That's the issue which the Argus has lustered from the general organ at Washington, and which all the lesser organs are instructed to play. It shows what the slaveocrats intended to do when Kansas should apply for admission as a FREE STATE. It intended to assail her people by swearing, as above, that because Kansas has just voted not to be bribed nor cajoled into accepting a pro-slavery Constitution, she has therefore and hereby voted to remain a "Territory!" This false and infamous assumption was provided for by the "English" swindle.

If Kansas rejected the Lecompton Constitution, (as it was well known she would,) then, as the English bill said she must stay out till her population amounts to 93,000, it was to be "taken and understood" that Kansas did not wish to come in as a State, at present. Hence the vote not to come in as a slave State therefore a determination to come in as a *free State!* This is the latest specimen of the "reach and logic of modern Democracy. It is entirely consistent with the upholding of Border Ruffian usurpations, burnings, murders and robberies—and with its prostitution of the National Constitution to the uses of slavery. The free people of the Union, however, have taken this matter in hand, and we entertain no doubt they will see justice done to Kansas.

Let the voters of Maine now remember, however, that the Black Democrats intend, under this English bill, to keep out free Kansas. Look to it, that no one of them gets into Congress from the State.

Door Knobbing.

It seems that our Democratic Council General for Canada is not satisfied with levying his black mail upon the reciprocal commerce of the two countries, at the rate of $2 for each package of $100 in value. He is not satisfied with a salary of $6,000, and plunder to the tune of $4,000—but is increasing the plunder by the most audacious double and treble charges. The "State of Maine," of Monday, says:

We were shown to-day, a bill of lading, &c., on a quantity of produce from D. Lurvey of Dixfield, to messrs. J. & D. Miller of this city, where it took the following times over, or from single consignments.

It took the first, $1 of Mr Ladner, then $2 more at Port Charles, and $2 more at Longueil, on the same ship.

And yet the Democratic administration of Washington, with a full knowledge of the single, double and trebleed aging thus going on, RETAINS IT IN PLUNDERER IN OFFICE.

Mr. Buchanan forced Mr. Andrewi, (the former able ed, *honest Census!*) to resign, by a threat of removal, and then bestowed the office upon Thomas B. S Moor, AS A REWARD FOR PARTISAN SERVICE. For the same stamp, Moor is now permitted to plunder the consumers of Canada for his own private benefit; and thereby UTTERLY TO DISGRACE THE AMERICAN NAME—this is only worthy of an administration of which makes dupes and drudges of the people's money, for the benefit of partisan favorites, at the rate of a murdered millions a year, and recklessly plunges the country into debt for Mormon and Indian wars got up by army contractors and political speculators.

INHERITE TAXATION.—According to the Tribune, the exact figures of the New York City Tax Levy, for 1858, shows an aggregate of EIGHT MILLION, FOUR HUNDRED AND SEVENTY-ONE THOUSAND NINETY-ONE DOLLARS AND THIRTY ONE CENTS, a nearly *one Hundred Dollars per head for every voter in the city.*

ADVERTISING.—The New York Ledger has a circulation larger than any other paper in the world, and it has all been done by judicious advertising. I cannot thoroughly understand the art of advertising, and he makes the best possible use of his knowledge. One num ber of the New York Weekly Tribune he had an advertisement for which he paid ONE THOUSAND DOLLARS, and he thinks he will made ten dollars for one by the operation.—Besides this he advertises in a most every paper in the country. He has paid as the past year, as much money as any advertiser in this city. Would it not be well for some of our own business men to profit by Bonner's experience. There is no way that business can be so cheaply and easily extended as by judicious advertising; yet many leave the best harvests to be reaped by the Bonners, who understand human nature.

DEATH OF A FAT BOY.—The Savannah News says: "One of our city physicians has handed us the following extract from a letter written to him by a professional brother in the upper country, describing a case which we imagine, we believe of rare occurrence in surgical practice: 'I must put in a slip, to give you an instance of death from the accumulation of fat. We had a young man residing eighteen miles from this place, who was one of the miracles of nature. At the age of 22 he weighed 585 pounds; he continued gradually to increase in flesh until he weighed over 600 pounds; he was able to get about with tolerable ease to attend his plantation interests. Some six week ago he commenced increasing in flesh very rapidly, and gained 14 pounds per day; then it was found he gained a little over 2 pounds per day. Last week he died suddenly in his chair, I think from the accumulation of fat around the heart. Three days prior to his death he weighed 616 pounds; and he just weighed the day of his death he weighed 616 pounds; and he just weighed the day of his death he weighed 616 pounds; and he just weighed the day of

TO THE DAILY WHIG AND COURIER.

ELEVEN DAYS

LATER FROM EUROPE.

By Atlantic Telegraph.

OFFICE ASSOCIATED PRESS, Boston, Aug. 26, 6 A. M.

The following despatch has just been received from Europe, via Trinity Bay:

TRINITY BAY, N. F. Aug. 25.

The following news has just been received from Valentia, Ireland.

Signed, DE SAUTY.

A treaty of peace has been concluded with China, in which indemnification has been secured to England and France.

Later Indian news has been received. Jonmy dates to the 19th of July having reached England. The mutiny in that country is being rapidly quelled.

The papers of to-day have a long and interesting report by Mr. Bright, the Atlantic Telegraph Company's engineer.

The steamship North America, with the Canadian, and the Asia, with the Boston mails, sailed from Liverpool on Saturday next. The steamer Fulton leaves Southampton for New York, the same day.

The Atlantic Telegraph.

NEW YORK, August, 26.

The news despatch from Valentia Bay, published in the afternoon editions, was received at Trinity Bay at nine o'clock last night, and would have been here in ample season for publication in the morning papers, had the lines in Nova Scotia not closed at nine o'clock. [illegible]

Flour, Wheat Meal, Cracked Wheat, Wheat Middlings,

AND SHORTS.

THE SUBSCRIBER continues to receive into his Store, weekly, from his Mill in the West, by Railroad, the above articles, fresh ground.

The Middlings are good feed for horses and swine, and much cheaper than any thing in the market. Store No. 15 Broad Street.

Bangor, June 22, 1858 JOSIAH TOWLE, 3tawtf

MAINE STATE

AGRICULTURAL SOCIETY.

THE objects of the Society are to bring together the best specimens of Stock and productions of Household Manufactures, and labor-saving Machines of all descriptions and thereby stimulate a laudable emulation to excel in every department of Industry. We see no way of bringing about these desirable results so satisfactorily as by an exhibition, where the public may freely examine and pass upon the merits of stock or articles exhibited. We believe such Exhibitions are the medium best calculated to bring to notice the popular merits of farm stock and productions and the mechanic finds his machine, carriage, or fabric, much better understood than by any other system of advertising. We desire to make the Exhibition of 1858 surpass all former ones.

We invite all to exhibit their stock, productions, fabrics, and machinery of any kind. The Rotunda of the State House and adjacent Halls have been granted to the Society for its use, and a large building is now being erected for the exhibition of heavy articles, farming utensils, &c.

Liberal arrangements have been made for the transportation of stock, and articles for exhibition, either one or both ways, free, on presentation of the Secretary's certificate that such stock or articles have been on exhibition, and not changed owners. Exhibitors are requested to give two weeks' notice to the Superintendents of the Roads over which they may design to pass—of the amount of stock and articles, and the Station at which it is to be taken upon the Road, so that suitable provision may be made for transportation. The Roads that will convey Stock, &c., free, are as follows.—Portland, Saco, and Portsmouth, Kennebec and Portland, Somerset and Kennebec Railroads. The Roads that will convey Stock, &c., at half price, are as follows:—Penobscot and Kennebec, Atlantic and St. Lawrence, York and Cumberland Railroads.

The Roads that offer to convey Stock free will run a Special Train on Monday and Saturday of the week of the Exhibition—other days, by regular trains, at half price. Articles may be sent any time during the week previous at half price. (All Stock at the owner's risk.)

The Show and Fair will be holden at Augusta, on the 21st, 22d, 23d and 24th of September, 1858. Contributors who intend exhibiting articles in the Halls are requested to make application for space to the Superintendent, Capt. CHARLES SIMMONS, as early as one week previous to the time of Exhibition, so that the least delay possible may be had in their arrangement.

Our former Exhibitions have been of a high order, and productive of much good, and still hoping that a general interest towards our Society and its efforts may be felt throughout the State.

NEWSPAPERARCHIVE®

STEAMERS.

California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Through Tickets, including transit of the Isthmus, via. Panama R. R.

By order of the Post-master General, the United States Mail Steamers will hereafter be despatched from New York to Aspinwall, on the 5th and 20th, of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across the Pacific Steamers for *about* only *three dollars*. This is the *only* line giving entire through tickets, including *transit* across the Isthmus.

Transit is made in *four hours* on *entirely new railroad* thus avoiding the great exposure to which travelers have been subject to fewer hours, and 240 miles of dangerous lake and river navigation, over rocks and shoals.

Arrangements are now perfected so that, the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mail and passengers, thus securing passengers by the shortest line, quickest and short passage, without any detention on the Isthmus.

☞ *Tickets must be countersigned by one of the Company's Agents before they will be recognized by the Agent at Panama*, and it is here that can be obtained of the only authorized Agent for the Atlantic and Pacific Mail Steamship Companies, in this city.

C. L. BABCOCK, Agent.

Aug. 4, 1858 No. 15 Broad street, Boston.

SUMMER ARRANGEMENT.

NEW YORK & PORTLAND.

The Splendid and Fast Steamer

Chesapeake,

Capt. HENRY CR. WELLS, will run regularly between New York and Portland as follows:

Leaves Brown's Wharf, Portland, every SATURDAY, at 6 P. M., and returning leaves New York, Pier NEW R., every TUESDAY, at the same hour.

This vessel has just been fitted up with fine accommodations for Passengers, making this the most speedy, safe and comfortable route for travellers between New York and Maine.

PASSAGE $5.00—including Fare and State Rooms.

Goods forwarded by this line to and from Montreal, Quebec, Bangor, Bath, Augusta, Eastport and St. John. Also, connects with steamers for Baltimore. Goods taken through with despatch, at the cheapest rates.

For freight or passage apply to

EMERY & FOX, H. H. CROMWELL,
Brown's Wharf, Pier 12 N. River,
Portland New York.

Portland, April 2, 1858

Port and to Boston.

Summer Arrangement.

The Steamer LEWISTON, Capt. Geo. Kay, and the FOREST CITY, Capt. F. A. Prince will run as follows:

Leave Atlantic Wharf Portland, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 7 o'clock P. M., and Central Wharf, Boston, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 5 o'clock P. M.

Fare in Cabin, $1.25
Fare on Deck, .50
Freight taken as usual.

Each Boat is furnished with a large number of State Rooms, for the accommodation of Ladies and families, and travellers are reminded that by taking this Line much time of time and expense will be made, and that the inconvenience of arriving in Boston at late hours of the night will also be avoided.

The Boats arrive in season for the passengers to take the earliest trains out of the city.

The Company are not responsible for baggage to any amount exceeding $50 in value, and that personal, unless notice is given, and paid for at the rate of one passenger for every $500 additional value.

THE CLIPPER SHIP "GOLDEN ROCKET,"

Of 600 Tons, now on the Stocks in Messrs. Conran's Ship Yard, will be constructed expressly for a Packet, to run between Bangor and San Francisco, and will leave Bangor for that place about the middle of October next. It is confidently expected the Golden Rocket will make one of the quickest passages ever made from this State—as she will be commanded by one of the most experienced Ship Masters that has already made three voyages to that place. The Golden Rocket will take out a small quantity of heavy freight in her lower hold, which will put her in perfect ballast for sailing (a portion of the freight being already engaged.) She will have spacious "between decks," and houses on deck, fitted up expressly for women and children, with a large complement of female servants expressly to look after their wants—which arrangement will give those women about to Reward their wives or children to California an opportunity never before offered. Women who are obliged to labor for subsistence, and who would wish to seek a home on the other side of the globe, will find this a better opportunity than ever before offered in the United States—more especially in the accommodations they will have for the price they pay. There will be several commodious Cabins in the ship, and families or ladies desiring extra accommodations, will be furnished with State Rooms, &c., equal to those in first class steamers. Quite a large number of passages have already been engaged for men, women and children. The ship leaving here in the fall, will bring her out Cape Horn in midsummer, which will make the trip a pleasant one—and arriving in San Francisco about the first of February, the time when mining operations commence, will afford the wishes of a large number of those bound to the shores of California. Those wishing to write to their friends in California and get returns, will have ample time between this date and the time the ship sails. The Golden Rocket will touch at Rio and Valparaiso on her passage out. Those wishing time on a part of their Passage or Freight Money, can have it by giving satisfactory security. Passage $150. For Freight or Passage, apply to

JAMES DUNNING or CHARLES E. DOLE,
Office in Store formerly occupied by G. W. Ladd, opposite Wood & Bishop's Store

Hitchcock's Combination Suction and Force Pump!

FOR SALE, a new kind of PUMP—suction and force—different from any thing now in use, for durability, &c. You can draw water from a deep well and force it to any part of your buildings at the same time, in case of fire or any other exigency. You can have it with or without the forcing part. Any person, with a jack-knife can do all the repairing that it will need for twenty years, as it will not get out or order and is not liable to freeze up like other Pumps. It has received the first premiums at four State fairs, and numerous county fairs.

It may be examined at the Tin Shop of P. H. MILLS, Exchange street, Bangor, where I shall remain for a few weeks. Town rights for sale.

E. H. SMITH.

Bangor, April 27, 1858

American Safety Paper Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations!

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr Kent, Assayer of the U.S. Mint, Mr. Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—35 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$36 for 1000 sheets.
Promissory Notes—40 cts. per lb
Sight and Time Drafts—$26 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb
Bank and State Stocks—40 cts. per lb
Bonds and Mortgages—40 cts per lb
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.

For Indentures and Agreements, 40 cts a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other, as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the ink and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J. of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York.

Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners who within I have had official intercourse."

CHAS. MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more competent, and more capable of putting specifications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents.

"Boston, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, in all but one of which patents have been granted, and that is now pending. Such unmistakable proof of great talent and ability on the part of any man as a Patent Agent all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGERT."

From Sept. 17 h, 1857, to June 17th, 1858, the subscriber, in course of his large practice, made on record rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

R. H. EDDY.

THE LIVER INVIGORATOR

PREPARED BY DR. SANFORD,

Compounded entirely from Gums,

IS ONE OF THE BEST PURGATIVE AND Liver Medicines now before the public.

These Gums removes all morbid matter and humor from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, *purifying the blood*, giving pure and healthy to the whole machinery, regulating the bowels, and the discharges, forming a radical cure.

Bilious attacks are cured, and what is better prevented, by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring prevents *nightmare*.

Only one dose taken at night loosens the bowels gently, and cures *costiveness*.

One dose taken after each meal will cure *Dyspepsia*.

One dose of two tea spoonfuls will always relieve *Sick Headache*.

Only one dose immediately relieves *Colic*, while

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

Price One Dollar per Bottle.

DR. SANFORD, Proprietor, No. 335 Broadway, N. Y. Retailed by all Druggists. Sold, also, by H. P. Bradbury, Bangor. june3 6'58 ly

One dose often repeated is a sure cure for *Cholera Morbus* and a preventive of *Cholera*.

Only one bottle is needed to throw out of the system the effects of bad medicine after a long sickness.

One bottle taken for *Jaundice* removes all unnatural color in the skin.

One dose taken a short time before retiring is a sure relief to the *headache*, and makes the head *clear as a bell*.

One dose, (two teaspoonfuls,) often relieves *Chronic Diarrhœa* in its worst forms, while *Sanford and Russell Camphor* will check it at the first dose.

A few bottles will cure *Dropsy*, by exciting the absorbents.

We take pleasure in recommending the above medicine as a preventive for *Fever and Ague, Chill Fever*, and all Fevers of a *bilious* type. It expels the chill certainly, and thoroughly, and we are willing to testify to its wonderful virtues.

Ayer's Pills

Ayer's Cherry Pectoral

Has long been manufactured with great care and skill, and is offered to the public with the confidence that its virtues will not disappoint those who use it. Its excellent qualities have won for it the confidence of the afflicted, and its unparalleled cures of colds, coughs, consumption, and all pulmonary complaints, render it unnecessary that we should publish certificates of its virtues in this vicinity. Its composition is such as to retain its medicinal properties in any climate, and it will keep for years. Those who have used it know its value, and those who have not should make a trial at once, and be convinced that it is the best remedy for Coughs, Colds, Bronchitis, Croup, Whooping Cough, Asthma, Influenza, Hoarseness, and Consumption, that has ever been discovered for the relief of suffering humanity. Public speakers, Singers, Clergymen, and those whose occupations subject them to Pulmonary complaints, will find relief from the first dose. Many of the most eminent clergymen in the country have sent us certificates of the cures it has performed in their congregations, which we would gladly publish, but our space is limited. Those who have once tried it will have no other Cherry Pectoral, and those who have not tried it should do so at once. Public confidence in this remedy is unbounded, because it has proved itself worthy of it. Throughout the entire community, wherever it has been introduced, it has driven out all other preparations of the kind, and is now the universal antidote for Pulmonary complaints.

Prepared by Dr. J. C. AYER,

BEES.

THE LUXURY AND PROFIT OF

HONEY MAKING.

☞ Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling *Torrey's Patent Bee Hive* for the Counties of Penobscot, Lincoln, Waldo, and Hancock, which has been received with favor, and taken the first premium wherever exhibited, has introduced an improvement in the Bee Hive and is now prepared to make and sell rights in towns and individuals.

This Bee Hive, thus improved, is one that persons acquainted with the honey making business to be superior to every thing now used for the purpose. It covers all the requisites for the profitable maintenance of the apiary, providing for ventilation at all seasons of the year, room for the exercise and feed of the bees, convenience for the removal of excrementitious matter, proper separation of the swarms, and for promoting the health, and comfort of the occupants.

The boxes used in this Hive for surplus honey are the best adapted, in their size, for readily holding from three to six pounds each.

The subscriber wishes to purchase two hundred swarms of bees in exchange for bee hives and individual rights.

☞ For sale, fifty swarms of Bees with the new hives

For hives, individual rights, &c. address
